RESOURCE DEVELOPMENT GROUP EXPANDS WITH LONDON OFFICE

Resource Development Group Limited (the “Company”) is pleased to announce that following the closure of its oversubscribed Initial Public Offering and successful listing on the ASX, the Company has commenced its expansion plans with the opening of an office in London, United Kingdom.

The Company’s wholly owned subsidiary, Engenium Pty Ltd (“Engenium”), was awarded a contract earlier in the year by SMFG for the supply of project services to the Nimba Iron Ore Project.

The Nimba Iron Ore Project is a Joint Venture between Newmont, BHP Billiton and AREVA, and includes a new 30Mtpa iron ore mine and associated processing plant located in Guinea.

The project is in pre-feasibility stage requiring design and assessment services provided by Engenium. The opening of a new office will allow the project to be managed out of London, whilst also serving as a strategic base to pursue other major iron ore project contracts in Africa.

"The award of the contract to Engenium and the opening of a London office are significant milestones for the Company, as we pursue our objective of being a vertically integrated mining services provider." said Managing Director, Jeff Brill.
