DIRECTORS' REPORT

Your directors submit the annual financial report of the consolidated entity (or "Group") consisting of Resource Development Group Limited ("Company") and the entities it controlled during the period for the financial year ended 30 June 2013. In order to comply with the provisions of the Corporations Act 2001, the directors report as follows:

Directors

The names of directors who held office throughout the year and until the date of this report are as follows. Directors were in office for this entire period unless otherwise stated.

Names, qualifications, experience and special responsibilities

Mr Mel Ashton (Non-Executive Chairman)

Mr Ashton holds a Bachelor of Commerce degree from the University of Western Australia, is a fellow of the Institute of Chartered Accountants and a fellow of the Australian Institute of Company Directors.

Mr Ashton also currently holds a number of board appointments, including a Deputy President of the Institute of Chartered Accountants in Australia, Director of The Hawaiian Group of Companies and Chairman of Cullen Wines (Australia) Pty Ltd.

In the three years immediately before the end of the financial year, Mr Ashton also served as a director of the following listed companies:

- Empired Limited since 2005*
- Gryphon Minerals Limited since 2004*
- Venture Minerals Limited since 2006*
- Barra Resources Limited from 2011 to January 2013
- Renaissance Minerals Limited since 2010*

* denotes current directorships

Mr Ashton is a member of the Company's Audit Committee and is Chairman of the Nomination and Remuneration Committees.

Mr Jeff Brill (Managing Director)

Mr Brill holds a Bachelor of Engineering degree (First Class Honours) from the University of Western Australia and is a member of the Australian Institute of Company Directors. Mr Brill has over 20 years experience in project management and engineering and was a founding director of Engenium Pty Ltd. Between 1998 and 2003, Mr Brill was employed as a senior project engineer for a number of companies including Rio Tinto and the Clough Group. Mr Brill was Engenium Pty Ltd.'s ("Engenium") managing director from inception in July 2003 until June 2010.

In the three years immediately before the end of the financial year, Mr Brill has not served as a director of any other listed companies.

Mr Damir Panzich (Executive Director)

Mr Panzich holds a Bachelor of Engineering degree from the University of Western Australia and is a member of the Australian Institute of Company Directors. Mr Panzich has over 20 years experience in project management and engineering including various project and construction management roles and senior project engineering roles between 1992 and 2009 for companies such as Rio Tinto and BHP Billiton particularly in relation to feasibility studies and construction projects including new railway infrastructure in Western Australia. Mr Panzich was a founding shareholder of Engenium.

Mr Panzich was also an executive director of Calibre Engenium Joint Venture Pty Ltd.

Mr Panzich is a member of the Company's Audit, Nomination and Remuneration Committees.

In the three years immediately before the end of the financial year, Mr Panzich has not served as a director of any other listed companies.

DIRECTORS' REPORT (continued)

Directors (continued)

Mr Chris Ryan (Non-Executive Director)

Mr Ryan holds a Bachelor of Business degree, is a fellow of the Australian Human Resources Institute, a fellow of the Australian Institute of Management and a graduate member of the Australian Institute of Company Directors.

Mr Ryan has over 20 years experience in senior Human Resources (HR) roles, including General Manager of Human Resources for Wesfarmers Limited between 1999 and 2008 where he was responsible for the HR aspects of acquisitions. He currently provides corporate advisory services, is a member of Curtin University's School of Management Advisory Board (since 2008) and is an Advisory Director to the Board of a privately held construction contractor.

Mr Ryan is a member of the Company's Nomination and Remuneration Committees, and is Chairman of the Audit Committee.

In the three years immediately before the end of the financial year, Mr Ryan has not served as a director of any other listed companies.

Company Secretary

Mr Ben Donovan – resigned 31 March 2013

Mr Donovan holds a Bachelor of Commerce (Honours) in finance and commercial law. He is a director and company secretary of several ASX listed and public unlisted companies. He is a Chartered Secretary and currently provides corporate advisory and consultancy services to a number of companies. Mr Donovan spent three years with the Perth office of ASX, providing ASX listing rule advice as Senior Adviser, to listed companies. Prior to joining the ASX, Mr Donovan worked for a boutique stock broking institution in Perth focusing on stock broking and corporate advisory areas.

Mr Mark Pugsley – appointed 1 February 2013

Mr Pugsley holds a Bachelor of Commerce degree, is an associate member of the Institute of Chartered Accountants in Australia and a graduate member of the Australian Institute of Company Directors. Mark has held Chief Financial Officer or General Manager roles in a number of financial services organisations and was Director of Finance and Company Secretary from 2004 to 2011 with RBS Morgans Limited and WA state director for RBS Morgans Limited from July 2011 to July 2012.

Interests in the shares and options of the company and related bodies corporate

The following relevant interests in shares of the Company or a related body corporate were held by the directors as at the date of this report.

Directors	Number of fully paid ordinary shares
Mr Mel Ashton	250,000
Mr Jeff Brill*	75,889,606
Mr Damir Panzich*	76,014,606
Mr Chris Ryan	125,000

* Mr Brill and Mr Panzich are shareholders and directors of Lightshare Investments Pty Ltd.

Dividends

No dividends have been paid or declared during the financial year.

DIRECTORS' REPORT (continued)

Principal Activities

The principal activities of the entities within the consolidated entity during the year were the provision of engineering, construction and consulting services to mining companies.

Review of 2013

The financial year ended 30 June 2013 will be remembered as a year in which Resource Development Group Limited achieved record revenues. In our second year as a listed company we achieved revenues of $102,688,531 which is up 182% on the previous year.

During a period of time where the Australian resources sector has experienced challenging conditions, Resource Development Group Limited completed the integration of all of its four operating subsidiaries and delivered a major EPC gold project. Unfortunately, a commercial settlement at the conclusion of this project negatively affected project profitability and the Group's overall profitability. In light of this and the difficult market conditions, the board took the appropriate action of writing down of its investment in Pacer Corporation Pty Ltd ("Pacer"), Ecologia Environmental Consultants Pty Ltd ("Ecologia") and Intellect Systems Pty Ltd ("Intellect Systems"). These write downs are of a non-cash nature and do not in any way impact on the Group's ability to continue to deliver its complete suite of services.

Resource Development Group made significant inroads to the reduction of debt during the year ended 30 June 2013 and strengthening our balance sheet remains one of our primary goals.

Highlights from 2013 include:

- Record revenues of $102,688,531, up 182% on the previous year
- Completion of the integration of all subsidiaries into the group
- Completion of the transition of management control of Ecologia from previous owners to new management
- Delivery of major EPC project, completed by Pacer with technical success

Operations

Resource Development Group has four operating subsidiaries:

- Ecologia, which specialises in environmental management and biological sciences consulting services to the resources, energy and infrastructure sectors of Australia and internationally
- Engenium, which provides project delivery services ranging from studies through to detailed engineering solutions and engineering, procurement and construction management (EPCM) services to the resources and infrastructure sectors of Australia and internationally
- Intellect Systems, a specialist provider of end to end industrial technology solutions in control systems and automation, electrical engineering and industrial information technology to the resources, energy and infrastructure sectors of Australia and internationally
- Pacer, a provider of low cost, high value, multi-discipline engineering and construction solutions to the Australian resources sector

All four subsidiaries have contributed to the Group's earnings over the past 12 months.

The Group continues to target sustaining works markets to generate recurring revenue streams in order to adapt to the changing market conditions and cycle of investment. Engenium secured several multi-year contracts for a range of large mining clients including BHP Billiton Iron Ore, Rio Tinto Iron Ore and Fortescue Metals Group. Ecologia also secured a multi-year contract for Fortescue Metals Group for monitoring services and completed work for the Government of Ecuador. Pacer completed the delivery of a large EPC contract for a gold mine including processing plant and supporting infrastructure during the year. A commercial dispute and subsequent settlement however resulted in a significant write down of profit on the project. Intellect Systems secured several contracts with a strategic supplier of major equipment to large mining clients whilst further establishing its relationships with several operating mines.

Diversification of the Group's earnings has been realised during the year with four revenue streams from our operating subsidiaries, spanning a wide array of clients within the resources sector and providing some diversification across energy and infrastructure sectors.

Workforce Capacity and Capability

Staff numbers have reduced over the past year, reflecting current demands from clients and the flexible approach of management to react to market conditions. As at 30 June 2013 Resource Development Group employed 126 people. Each subsidiary carries a core capability skillset that can be rapidly increased to meet project requirements without compromising quality of service.

DIRECTORS' REPORT (continued)

Strategy and Outlook

Resource Development Group remains committed to building a diversified services business using a combination of organic growth, exploitation of intercompany synergies and further acquisitions. Whilst the bulk of our revenue in 2013 was derived from the resources sector, significant inroads have been made against our strategic plan for 2012 to 2016. This plan is underpinned by consolidation of operations in Western Australia followed by geographical and sector diversification within Australia and then internationally.

Resource Development Group has a focus on flexibility and growing our recurring revenue streams to provide resilience in dynamic markets. We have consolidated our operations in Perth and in 2014 will complete the co-location of all of our businesses into one office location. This will provide further Group synergies, allow us to all work smarter as a Group and provide for further cost savings. We have begun the process of replicating our capabilities on the East Coast of Australia and will be well positioned as that market recovers.

Given the outlook for 2014 is expected to be difficult with business sentiment at low levels, Resource Development Group Limited's planning is based around a consolidation approach to strip costs and overheads out of the Group and provide resilient earnings.

The targets of becoming a resilient business with the ability to navigate changing market conditions, whilst strengthening our balance sheet remain our primary goals. We are optimistic about the future and are confident we can deliver on our operational and financial goals for 2014.

Information on the financial position of the Group is set out on pages 23 to 66 of the annual report.

Operating results for the year

The Group reported a net loss after income tax for the reporting year ended 30 June 2013 of $5,900,390 (2012: profit after tax of $2,756,697). Revenues from continuing operations were $102,688,531, up 182% on the previous year of $36,367,270.

Risk management

The Group has taken decisions as to how it should manage the various categories of risk exposure and they include the imposition of Standard Operating Procedures (SOP's) for routine business transactions; and mitigation initiatives such as insurance policies to lessen or obviate risks.

Significant changes in the state of affairs

There have been no significant changes in the state of affairs of the consolidated entity to the date of this report.

Significant events after balance date

On 25 September 2013, the Group received confirmation from Westpac Banking Corporation that the current loan facility due to expire on 31 May 2014 has been extended for a further three years until 7 May 2017. This extension in conjunction with the Lightshare Investments Pty Ltd funding arrangement secured on 28 June 2013 adds surety to the Group's funding going forward.

Likely developments and expected results

Disclosure of information regarding likely developments in the operations of the consolidated entity in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the consolidated entity. Therefore, this information has not been presented in this report.

DIRECTORS' REPORT (continued)

Environmental legislation

The consolidated entity is not subject to any significant environmental legislation.

Indemnification and insurance of Directors and Officers

The Company has agreed to indemnify all the directors of the Company for any liabilities to another person (other than the Company or related body corporate) that may arise from their position as directors of the Company and its controlled entities, except where the liability arises out of conduct involving a lack of good faith.

During the financial year the Company paid a premium in respect of a contract insuring the directors and officers of the Company and its controlled entities against any liability incurred in the course of their duties to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Remuneration report

This report outlines the remuneration arrangements in place for the key management personnel of Resource Development Group Limited for the financial year ended 30 June 2013. The information provided in this remuneration report has been audited as required by Section 308(3C) of the Corporations Act 2001.

The remuneration report details the remuneration arrangements for key management personnel ("KMP") who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any director (whether executive or otherwise) of the parent company.

Key management personnel

(i) Directors

Mr Mel Ashton (Non-Executive Chairman)

Mr Jeff Brill (Managing Director)

Mr Damir Panzich (Executive Director)

Mr Chris Ryan (Non-Executive Director)

(ii) Executives

Mr Troy Ventriss (Chief Financial Officer) – resigned 21 December 2012

Mr Mark Pugsley (Chief Financial Officer) – appointed 3 December 2012

Remuneration philosophy

The performance of the Company depends upon the quality of the directors and executives. The philosophy of the Company in determining remuneration levels is to:

- set competitive remuneration packages to attract and retain high calibre employees;
- link executive rewards to shareholder value creation; and
- establish appropriate, demanding performance hurdles for variable executive remuneration.

Remuneration committee

The Remuneration Committee of the Board of Directors of the Company is responsible for determining and reviewing compensation arrangements for the directors, the CEO and the executive team.

The Remuneration Committee assesses the appropriateness of the nature and amount of remuneration of directors and executives on a periodic basis by reference to relevant employment market conditions with an overall objective of ensuring maximum stakeholder benefit from the retention of a high quality Board and executive team.

DIRECTORS' REPORT (continued)

Remuneration report (continued)

Remuneration structure

In accordance with best practice corporate governance, the structure of non-executive director and executive remuneration is separate and distinct.

Non-executive director remuneration

The Board seeks to set aggregate remuneration at a level that provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

The ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. The latest determination was at a General Meeting held on 3 February 2011 when shareholders approved an aggregate remuneration of $500,000 per year.

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst directors is reviewed annually. The Board considers advice from external shareholders as well as the fees paid to non-executive directors of comparable companies when undertaking the annual review process.

Each director receives a fee for being a director of the company, and includes any committee on which a director sits.

The remuneration of directors for the year ended 30 June 2013 is detailed in Table 1 of this report.

Senior manager and executive director remuneration

Remuneration consists of fixed remuneration and variable remuneration (comprising short-term and long-term incentive schemes).

Fixed remuneration

Fixed remuneration is reviewed annually by the Remuneration Committee. The process consists of a review of relevant comparative remuneration in the market and internally and, where appropriate, external advice on policies and practices. The Committee has access to external, independent advice where necessary.

Senior managers are given the opportunity to receive their fixed (primary) remuneration in a variety of forms including cash and fringe benefits such as motor vehicles and expense payment plans. It is intended that the manner of payment chosen will be optimal for the recipient without creating undue cost for the Group.

The fixed remuneration component of the key management personnel is detailed in Table 1 of this report.

Variable remuneration

The objective of the short term incentive program is to link the achievement of the Group's operational targets with the remuneration received by the executives charged with meeting those targets. The total potential short term incentive available is set at a level so as to provide sufficient incentive to the senior manager to achieve the operational targets and such that the cost to the Group is reasonable in the circumstances.

Actual payments granted to each senior manager depend on the extent to which specific operating targets set at the beginning of the financial year are met.

The aggregate of annual payments available for executives across the Group is subject to the approval of the Remuneration Committee. Payments made are delivered as a cash bonus in the following reporting period.

The Company also makes long term incentive payments to reward senior executives in a manner that aligns this element of remuneration with the creation of shareholder wealth.

Bonus payments of $64,232 were made during the year (2012: $82,569).

DIRECTORS' REPORT (continued)

Remuneration report (continued)

Employment contracts

Mr Jeff Brill (Managing Director)

The Company has continued a Service Agreement effective 8 February 2011 with Jeff Brill, employing him as Managing Director for an indefinite term commencing 8 February 2011, for Total Fixed Remuneration ("TFR") of $320,000 per annum, and an annual incentive capped at 30% of TFR, resulting in total possible remuneration of approximately $416,000 per annum for the financial year ended 30 June 2013.

The incentive targets which must be met to receive the incentive component of the remuneration package will be set at the beginning of each financial year. A portion of Mr Brill's remuneration is therefore 'at risk', subject to achievement of key performance measures set by the Board which for the current financial year include NPAT (50% of incentive target), and strategic corporate goals (50% of incentive target).

The agreement may be terminated by either party giving three months written notice, or terminated immediately with cause. Restraint and non solicitation provisions will apply for six months following termination of the contract, and other usual and appropriate commercial conditions of employment are included to protect the interests of the Company during and following his term of employment.

Mr Damir Panzich (Executive Director)

The Company has continued a Service Agreement effective 6 February 2012 with Damir Panzich, employing him as Executive Director for an indefinite term commencing 6 February 2012, for TFR of $290,000 per annum, and an annual incentive capped at 30% of TFR, resulting in total possible remuneration of approximately $377,000 per annum for the year ended 30 June 2013.

The incentive targets which must be met to receive the incentive component of the remuneration package will be set at the beginning of each financial year. A portion of Mr Panzich's remuneration is therefore 'at risk', subject to achievement of key performance measures set by the Board which for the current financial year include project development (40% of incentive target), and securing new contracts (50% of incentive target) and assistance with organic growth (10% of incentive target).

The agreement may be terminated by either party giving three months written notice, or terminated immediately with cause. Restraint and non solicitation provisions will apply for six months following termination of the contract, and other usual and appropriate commercial conditions of employment are included to protect the interests of the Company during and following his term of employment.

Mr Troy Ventriss (Chief Financial Officer)

The Company had a Service Agreement effective 10 March 2011 with Troy Ventriss, employing him as Chief Financial Officer for an indefinite term commencing 10 March 2011, for TFR of $225,000 per annum, and an annual incentive capped at 15% of TFR, resulting in total possible remuneration of approximately $258,750 per annum for the financial year ended 30 June 2013. The incentive targets which had to be met to receive the incentive component of the remuneration package were set at the beginning of each financial year.

A portion of Mr Ventriss' remuneration was therefore 'at risk', subject to achievement of key performance measures set by the Board which for the current financial year included NPAT (50% of incentive target), and effective leadership in all financial aspects of the Company (50% of incentive target).

The agreement was terminated on 21 December 2012 by Mr Ventriss. Restraint and non solicitation provisions applied for six months following termination of the contract, and other usual and appropriate commercial conditions of employment were included to protect the interests of the Company during and following his term of employment.

Mr Mark Pugsley (Chief Financial Officer/Company Secretary)

The Company has entered into a Service Agreement effective 3 December 2012 with Mark Pugsley, employing him as Chief Financial Officer / Company Secretary for an indefinite term commencing 3 December 2012 for a TFR of $225,000 per annum, pro-rated for the financial year ended 30 June 2013.

The agreement may be terminated by either party giving three months written notice, or terminated immediately with cause. Restraint and non solicitation provisions will apply for six months following termination of the contract, and other usual and appropriate commercial conditions of employment are included to protect the interests of the Company during and following his term of employment.

No options were granted during the year.

DIRECTORS' REPORT (continued)

Remuneration report (continued)

Details of employee share option plans

Under the terms of the plan, the Board may offer free options to persons ("Eligible Persons") who are full-time or part-time employees (including a person engaged by the Company under a consultancy agreement); or Directors of the Company or any subsidiary based on a number of criteria including contribution to the Company, period of employment, potential contribution to the Company in the future and other factors the Board considers relevant. Upon receipt of such an offer, the Eligible Person may nominate an associate to be issued with the options. The maximum number of options issued under the Plan at any one time is 5% of the total number of Shares on issue in the Company provided that the Board may increase this percentage, subject to the Corporations Act and the Listing Rules.

Each option entitles the holder, on exercise, to one ordinary fully paid share in the Company. There is no issue price for the options. The exercise price for the options will be such price as determined by the Board (in its discretion) on or before the date of issue provided that in no event shall the exercise price be less than 80% of the weighted average sale price of Shares sold on ASX during the five Business Days prior to the date of issue.

Shares issued on exercise of options will rank equally with other ordinary shares of the Company.

Options may not be transferred other than to a nominee of the holder. Quotation of options on ASX will not be sought. However, the Company will apply to ASX for official quotation of Shares issued on the exercise of options.

An option may only be exercised after that option has vested and any other conditions imposed by the Board on exercise satisfied. The Board may determine the vesting period (if any). An option will lapse upon the first to occur of the expiry date, the holder acting fraudulently or dishonestly in relation to the Company, the employee ceasing to be employed by the Company or on certain conditions associated with a party acquiring a 90% interest in the Shares of the Company.

If, in the opinion of the Board any of the following has occurred or is likely to occur, the Company entering into a scheme of arrangement, the commencement of a takeover bid for the Company's Shares, or a party acquiring a sufficient interest in the Company to enable them to replace the Board, the Board may declare an option to be free of any conditions of exercise. Options which are so declared may, subject to the lapsing conditions set out above, be exercised at any time on or before their expiry date and in any number.

There are no participating rights or entitlements inherent in the options and option holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the options. However, the Company will ensure that the record date for determining entitlements to any such issue will be at least six Business Days after the issue is announced. Option holders shall be afforded the opportunity to exercise all options which they are entitled to exercise pursuant to the Plan prior to the date for determining entitlements to participate in any such issue.

If the Company makes an issue of shares to Shareholders by way of capitalisation of profits or reserves ("Bonus Issue"), each option holder holding any options which have not expired at the time of the record date for determining entitlements to the Bonus Issue shall be entitled to participate in the Bonus Issue by exercising their options before the record date determining entitlements under the Bonus Issue. They will then be issued the shares under the Bonus Issue in addition to the Shares which he or she is otherwise entitled to have issued to him or her upon such exercise.

The Bonus Shares will be paid by the Company out of profits or reserves (as the case may be) in the same manner as was applied in relation to the Bonus Issue and upon issue rank pari passu in all respects with the other Shares issued upon exercise of the options. In the event of any reconstruction (including a consolidation, subdivision, reduction or return) of the issued capital of the Company prior to the expiry of any options, the number of options to which each option holder is entitled or the exercise price of his or her options or both or any other terms will be reconstructed in a manner determined by the Board which complies with the provisions of the Listing Rules.

Under current taxation laws any taxation liability in relation to the options, or the Shares issued on exercise of the options, will fall on the participants. The Company will not be liable to fringe benefits tax in relation to options or Shares issued under the Plan.

Although Directors are eligible to be offered options under the Plan, this first requires specific Shareholder approval due to the requirements of the ASX Listing Rules and the Corporations Act 2001.

DIRECTORS' REPORT (continued)

Remuneration report (continued)

Details of Employee Incentive Plan

The Group continued the Employee Incentive Plan which was first adopted in February 2011, which allowed the Board to invite employees to apply for incentives. The incentives may be exercised for nil consideration when certain vesting conditions occur, at which point one share will be issued for each incentive exercised.

Of the 2,660,040 incentives on issue at 30 June 2012, 2,447,172 were exercised and converted to fully paid ordinary shares in May 2013.

During the year 4,550,000 incentives were issued, of which 3,750,000 still remain at 30 June 2013. These incentives have both continuous employment and earning per share vesting conditions attached.

Mr Mel Ashton and Mr Chris Ryan had 62,500 incentives on issue each which converted to fully paid ordinary shares during the current financial year.

Directors' Meetings

The number of meetings of directors (including meetings of committees of directors) held during the year and the number of meetings attended by each director was as follows:

	Directors' Meetings	Audit Committee	Remuneration Committee
Number of meetings including meetings held via circular resolution:	14	2	-
Number of meetings attended:			
Mr Mel Ashton	13	2	-
Mr Jeff Brill	14	2*	-
Mr Damir Panzich	14	2	-
Mr Chris Ryan	14	2	-

*** indicates attendance by invitation**

Proceedings on behalf of the Group

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Group, or to intervene in any proceedings to which the Group is a party for the purpose of taking responsibility on behalf of the Group for all or part of those proceedings.

Auditor Independence and Non-Audit Services

Section 307C of the Corporations Act 2001 requires our auditors, HLB Mann Judd, to provide the directors of the Company with an Independence Declaration in relation to the audit of the annual report. This Independence Declaration is set out on page 22 and forms part of this directors' report for the year ended 30 June 2013.

DIRECTORS' REPORT (continued)

Non-Audit Services

No non-audit services were provided by the auditor or any entity associated with the auditor during the year.

Signed in accordance with a resolution of the directors.

Mr Mel Ashton

Non-Executive Chairman
Perth, Western Australia
26 September 2013

CORPORATE GOVERNANCE STATEMENT

Resource Development Group Limited has made it a priority to adopt systems of control and accountability as the basis for the administration of corporate governance. These policies and procedures are summarised in this statement. Commensurate with the spirit of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations ("**Principles & Recommendations**"), the Company has followed each recommendation where the Board has considered the recommendation to be an appropriate benchmark for its corporate governance practices. Where the Company's corporate governance practices follow a recommendation, the Board has made appropriate statements reporting on the adoption of the recommendation. Where, after due consideration, the Company's corporate governance practices depart from a recommendation, the Board has offered full disclosure and reason for the adoption of its own practice, in compliance with the "if not, why not" regime.

Disclosure of Corporate Governance Practices

Risk Management Policy (summary)	7.1, 7.4

Disclosure – Principles & Recommendations

The Company reports below on how it has followed (or otherwise departed from) each of the Principles and Recommendations during the 2012/2013 financial year ("**Reporting Period**").

Principle 1 – Lay solid foundations for management and oversight

Recommendation 1.1: Companies should establish the functions reserved to the Board and those delegated to senior executives and disclose those functions.

Disclosure:

The Group has established the functions reserved to the Board and has set out these functions in its Board Charter. The Board is collectively responsible for promoting the success of the Group through its key functions of overseeing the management of the Company, providing overall corporate governance of the Company, monitoring the financial performance of the Company, engaging appropriate management commensurate with the Company's structure and objectives, involvement in the development of corporate strategy and performance objectives and reviewing, ratifying and monitoring systems of risk management and internal control, codes of conduct and legal compliance.

The Company has established the functions delegated to senior executives and has set out these functions in its Board Charter. Senior executives are responsible for supporting the Chief Executive Officer and assisting the Chief Executive Officer in implementing the running of the general operations and financial business of the Company, in accordance with the delegated authority of the Board.

Senior executives are responsible for reporting all matters which fall within the Company's materiality thresholds at first instance to the Chief Executive Officer or, if the matter concerns the Chief Executive Officer, then directly to the Chair or the lead independent director, as appropriate.

Recommendation 1.2: Companies should disclose the process for evaluating the performance of senior executives.

Disclosure:

The Managing Director is responsible for evaluating the senior executives by holding formal and informal discussions with the senior executives on an ongoing basis, as required. The Chair reviews and evaluates the Managing Director's performance.

CORPORATE GOVERNANCE STATEMENT (continued)

Recommendation 1.3: Companies should provide the information indicated in the *Guide to reporting on Principle 1.*

Disclosure:

During the Reporting Period a review of senior executives occurred with the Managing Director reporting to the board via informal evaluations.

Principle 2 – Structure the board to add value

Recommendation 2.1: A majority of the Board should be independent directors. As at 30 June 2013 the following directors were appointed to the Board of the Group:

Name	Position	Independent
Mr Mel Ashton	Non-executive Director	Yes
Mr Jeff Brill	Managing Director	No
Mr Damir Panzich	Executive Director	No
Mr Chris Ryan	Non-executive Director	Yes

An independent director is defined as a non-executive director and;

- Is not a substantial shareholder of the Company or an officer of or directly or indirectly associated with a substantial shareholder of the Company;
- Within the last three years has not been employed in an executive capacity by the Company, or been a director after ceasing to hold any such employment;
- Within the past three years has not been a principal of a material professional advisor or a material consultant to the Company or an employee associated with a such a material service provider or advisor; and,
- Does not have a material contractual relationship with the Company other than as a director of the Company.

Disclosure:

The Board comprises four directors, two of which are independent, namely Mel Ashton and Chris Ryan. The remaining directors are not independent because Jeff Brill and Damir Panzich are employed in an executive capacity. The Board considers that the merits of appointing an additional director in order to achieve majority independent status are outweighed by the Board's wish to maintain a relatively small board of four directors, which the Board believes is adequate having regard to the operations of the Company.

Recommendation 2.2: The Chair should be an independent director.

Disclosure:

The independent Chair of the Board is Mr Mel Ashton.

Recommendation 2.3: The roles of the Chair and Chief Executive Officer (or equivalent) should not be exercised by the same individual.

Disclosure:

During the Reporting Period, Mr Jeff Brill was Managing Director and Mr Mel Ashton was Chairman.

Recommendation 2.4: The Board should establish a Nomination Committee.

Disclosure:

The Nomination Committee consists of three members including two independent directors, being Mr Mel Ashton as Chairman, along with Mr Chris Ryan and Mr Damir Panzich. The Committee has a charter setting out the criteria and responsibilities for the selection of new directors.

CORPORATE GOVERNANCE STATEMENT (continued)

Recommendation 2.5: Companies should disclose the process for evaluating the performance of the Board, its committees and individual directors.

Disclosure:

The Chair evaluates the Board, individual directors, any applicable committees and the Managing Director by holding informal discussions with these parties on an ongoing basis, as required. During the year a formal feedback process was conducted. Each new director is required to complete an induction process.

Recommendation 2.6: Companies should provide the information indicated in the *Guide to reporting on Principle 2*.

Disclosure:

Skills, Experience, Expertise and term of office of each Director

A profile of each director containing their skills, experience, expertise and term of office is set out in the Directors' Report.

Identification of Independent Directors

The independent directors of the Company are Mr Mel Ashton and Mr Chris Ryan. These directors are independent as they are non-executive directors who are not members of management and who are free of any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the independent exercise of their judgment.

Independence is measured having regard to the relationships listed in Box 2.1 of the Principles & Recommendations and the Group's materiality thresholds. The materiality thresholds are set out below.

Group's Materiality Thresholds

The Board has agreed on the following guidelines for assessing the materiality of matters, as set out in the Company's Board Charter:

- Consolidated Statement of Financial Position items are material if they have a value of more than 10% of net assets.
- Consolidated Statement of Comprehensive Income items are material if they will have an impact on the current year operating result of 10% or more.
- Items are also material if they impact on the reputation of the Company, involve a breach of legislation, are outside the ordinary course of business, they could affect the Company's rights to its assets, if accumulated they would trigger the quantitative tests, involve a contingent liability that would have a probable effect of 10% or more on balance sheet or profit and loss items, or they will have an effect on operations which is likely to result in an increase or decrease in net income or dividend distribution of more than 10%.

Contracts will be considered material if they are outside the ordinary course of business, contain exceptionally onerous provisions in the opinion of the Board, impact on income or distribution in excess of the quantitative tests, there is a likelihood that either party will default, and the default may trigger any of the quantitative tests, are essential to the activities of the Company and cannot be replaced, or cannot be replaced without an increase in cost of such a quantum, triggering any of the quantitative tests, contain or trigger change of control provisions, they are between or for the benefit of related parties, or otherwise trigger the quantitative tests.

Statement concerning availability of Independent Professional Advice

If a director considers it necessary to obtain independent professional advice to properly discharge the responsibility of their office as a director then, provided the director first obtains approval for incurring such expense from the Chair, the Company will pay the reasonable expenses associated with obtaining such advice.

Nomination Matters

The Nomination Committee did not meet during the Reporting Period.

Principle 3 – Promote ethical and responsible decision-making

Recommendation 3.1: Companies should establish a Code of Conduct and disclose the code or a summary of the code as to the practices necessary to maintain confidence in the Company's integrity, the practices necessary to take into account their legal obligations and the reasonable expectations of their stakeholders and the responsibility and accountability of individuals for reporting and investigating reports of unethical practices.

Disclosure:

The Company has established a Code of Conduct as to the practices necessary to maintain confidence in the Company's integrity, practices necessary to take into account their legal obligations and the expectations of their stakeholders and responsibility and accountability of individuals for reporting and investigating reports of unethical practices.

CORPORATE GOVERNANCE STATEMENT (continued)

Recommendation 3.2: Companies should establish a policy concerning diversity and disclose the policy or a summary of that policy. The policy should include requirements for the board to establish measurable objectives for achieving gender diversity for the Board to assess annually both the objectives and progress in achieving them.

Disclosure:

The Company has established a diversity policy, which encourages and fosters an environment where individual differences of employees are recognised. The Company's policy recognises the need for women to be employed in the business and actively sets targets for the number of women employed in different roles, the comparative remuneration and seeks to establish a workforce free of harassment arising out of gender, race or age.

The Board is looking to implement KPI's as an incentive for achieving these targets.

Recommendation 3.3: Companies should disclose in each annual report the measurable objectives for achieving gender diversity set by the Board in accordance with the diversity policy and progress towards achieving them.

Disclosure:

As above.

Recommendation 3.4: Companies should disclose in each annual report the proportion of women employees in the whole organisation, women in senior executive positions and women on the Board.

Disclosure:

The Company employs the following ratio of women and men throughout the organisation and its subsidiaries:

Women – 25%

Men – 75%

There are currently no women holding senior executive roles or board positions.

Recommendation 3.5: Companies should provide the information indicated in the *Guide to reporting on Principle 3.*

Disclosure:

Please refer to the section above marked Website Disclosures.

The Company has also established a policy concerning trading in the Company's securities by directors, senior executives and employees.

The policy includes blackout periods where no trading in Group securities shall take place between:

- up to and including six weeks prior to the announcement of the annual results, due to be lodged by no later than 30 September of each calendar year;
- up to and including six weeks prior to the announcement of the half year results, due to be lodged by no later than 28 February of each calendar year; and
- as directed in writing by the Company's Board at any time in its sole discretion.

If directors including the Managing Director wish to trade securities outside the blackout period, they must obtain approval from the Chairman. Employees must obtain the approval of the Managing Director, and the Chairman must obtain the approval of the Board.

Principle 4 – Safeguard integrity in financial reporting

Recommendation 4.1 and Recommendation 4.2:

The Board should establish an Audit Committee and the Audit Committee should be structured so that it:

- consists only of non-executive directors;
- consists of a majority of independent directors;
- is chaired by an independent Chair, who is not Chair of the Board; and
- has at least three members.

Disclosure:

The Board has established an Audit committee that is structured in accordance with Recommendation 4.2. Mr Chris Ryan is the chair of committee along with Mr Mel Ashton and Mr Damir Panzich. Mr Ashton and Mr Ryan are independent directors. Mr Panzich is not considered independent but is a member due to the small size of the Board.

CORPORATE GOVERNANCE STATEMENT (continued)

Recommendation 4.3: The Audit Committee should have a formal charter.

Disclosure:

The Company has adopted an Audit Committee Charter which sets out the responsibilities and role of the Committee and how it reports to the Board.

Recommendation 4.4: Companies should provide the information indicated in the *Guide to reporting on Principle 4.*

Disclosure:

The Audit Committee met twice during the Reporting Period in accordance with the Audit Committee Charter.

Details of each of the director's qualifications are set out in the Directors' Report. The Chairman of the Board has formal qualifications in the area of accounting and insolvency, while the other members have industry knowledge and experience and consider themselves to be financially literate. Further, the Company's Audit Committee Charter provides that the Board meet with the external auditor without management present, as required.

The Company has established procedures for the selection, appointment and rotation of its external auditor. The Board is responsible for the initial appointment of the external auditor and the appointment of a new external auditor when any vacancy arises, as recommended by the Audit Committee (or its equivalent). Candidates for the position of external auditor must demonstrate complete independence from the Group through the engagement period. The Board may otherwise select an external auditor based on criteria relevant to the Company's business and circumstances. The performance of the external auditor is reviewed on an annual basis by the Audit Committee (or its equivalent) and any recommendations are made to the Board.

Principle 5 – Make timely and balanced disclosure

Recommendation 5.1: Companies should establish written policies designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior executive level for that compliance and disclose those policies or a summary of those policies.

Disclosure:

The Company has established written policies designed to ensure compliance with ASX Listing Rule disclosure and accountability at a senior executive level for that compliance. The policies also include examples of disclosure requirements and who can communicate with media outlets.

Recommendation 5.2: Companies should provide the information indicated in the *Guide to reporting on Principle 5.*

Disclosure:

Please refer to the section marked Website Disclosures.

Principle 6 – Respect the rights of shareholders

Recommendation 6.1: Companies should design a communications policy for promoting effective communication with shareholders and encouraging their participation at general meetings and disclose their policy or a summary of that policy.

Disclosure:

The Company has designed a communications policy for promoting effective communication with shareholders and encouraging shareholder participation at general meetings. This includes all relevant information being disclosed on the Company’s website and a regular email mail out of announcements.

Recommendation 6.2: Companies should provide the information indicated in the *Guide to reporting on Principle 6.*

Disclosure:

Please refer to the section marked Website Disclosures.

CORPORATE GOVERNANCE STATEMENT (continued)

Principle 7 – Recognise and manage risk

Recommendation 7.1: Companies should establish policies for the oversight and management of material business risks and disclose a summary of those policies.

Disclosure:

The Board has adopted a Risk Management Policy, which sets out the Company's risk profile. Under the policy, the Board is responsible for approving the Company's policies on risk oversight and management and satisfying itself that management has developed and implemented a sound system of risk management and internal control.

Under the policy, the Board delegates day-to-day management of risk to the Managing Director, who is responsible for identifying, assessing, monitoring and managing risks. The Managing Director and the Chief Financial Officer are responsible for updating the Company's material business risks to reflect any material changes, with the approval of the Board.

In fulfilling the duties of risk management, the Managing Director may have unrestricted access to Company employees, contractors and records and may obtain independent expert advice on any matter they believe appropriate, with the prior approval of the Board.

In addition, the following risk management measures have been adopted by the Board to manage the Company’s material business risks:

- the Board has established authority limits for management which, if exceeded, will require prior Board approval;
- the Board has adopted a compliance procedure for the purpose of ensuring compliance with the Group's continuous disclosure obligations; and
- the Board has adopted a corporate governance manual which contains other policies to assist the Company to establish and maintain its governance practices.

Recommendation 7.2: The Board should require management to design and implement the risk management and internal control system to manage the Company's material business risks and report to it on whether those risks are being managed effectively. The Board should disclose that management has reported to it as to the effectiveness of the Company's management of its material business risks.

Disclosure:

Management report to the Board as to the effectiveness of the Company's management of its material business risks via the Audit Committee meetings. In addition at every board meeting, the Board is provided with an update to ensure all relevant risks and systems are in place and working effectively.

Recommendation 7.3: The Board should disclose whether it has received assurance from the Managing Director (or equivalent) and the Chief Financial Officer (or equivalent) that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

Disclosure:

The Managing Director (or equivalent) and the Chief Financial Officer (or equivalent) have provided a declaration to the Board in accordance with section 295A of the Corporations Act and have assured the Board that such declaration is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial risk.

Recommendation 7.4: Companies should provide the information indicated in the *Guide to reporting on Principle 7.*

Disclosure:

The Board has received an informal report from management under Recommendation 7.2.

The Board has received the assurance from the Managing Director (or equivalent) and the Chief Financial Officer (or equivalent) under Recommendation 7.3.

CORPORATE GOVERNANCE STATEMENT (continued)

Principle 8 – Remunerate fairly and responsibly

Recommendation 8.1 and 8.2: The Board should establish a Remuneration Committee, which consists of mainly independent directors.

Disclosure:

The Company has established a Remuneration Committee. The Committee has adopted a formal charter setting out the responsibilities and considerations in determining remuneration of executives and non-executives. The Committee consists of Mr Mel Ashton as Chairman, Mr Chris Ryan and Mr Damir Panzich. Mr Ashton and Mr Ryan are independent directors, while Mr Panzich is required due to the size of the Board.

Recommendation 8.3: Companies should clearly distinguish the structure of non-executive directors' remuneration from that of executive directors and senior executives.

Disclosure:

Non-executive directors are remunerated at a fixed fee for their time and their responsibilities to various committees.

The non-executive directors are however eligible to participate in the Company's incentive plan and two of the non-executive directors, Mel Ashton and Chris Ryan, have previously received a grant of incentives under that plan which are convertible into shares in the Company. The Board considers that this is a necessary motivation to attract the highest calibre candidates to the Board at this stage in the Company's operations.

Recommendation 8.4: Companies should provide the information indicated in the *Guide to reporting on Principle 8.*

Disclosure:

Details of remuneration, including the Group's policy on remuneration, are contained in the "Remuneration Report" which forms of part of the Directors' Report.

The Remuneration Committee did not meet during the Reporting Period.

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the consolidated financial report of Resource Development Group Limited for the year ended 30 June 2013, I declare that to the best of my knowledge and belief, there have been no contraventions of:

a) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and

b) any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Resource Development Group Limited and the entities it controlled during the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(a) Reporting entity

Resource Development Group Ltd is a company domiciled in Australia. The consolidated balances of the Company for the year ended 30 June 2013 include the Company and its subsidiaries.

(b) Adoption of new and revised standards

Changes in accounting policies on initial application of Accounting Standards

In the year ended 30 June 2013, the directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for the current annual reporting period.

It has been determined by the directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group and, therefore, no change is necessary to Group accounting policies.

The directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2013. As a result of this review the directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group and, therefore, no change necessary to Group accounting policies.

(c) Statement of compliance

The financial report was authorised for issue on 26 September 2013.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

(d) Basis of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Resource Development Group Limited ('Company' or 'parent entity') as at 30 June 2013 and the results of all subsidiaries for the year then ended. Resource Development Group Limited and its subsidiaries are referred to in this financial report as the Group or the consolidated entity.

The financial statements of the subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. Control exists where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing when the Group controls another entity.

Business combinations have been accounted for using the acquisition method of accounting (refer note 1(l)).

Unrealised gains or transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Basis of consolidation (continued)

When the Group ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint controlled entity or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

(e) Critical accounting estimates and judgements

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the period in which the estimate is revised if it affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences as management considers that it is probable that sufficient future tax profits will be available to utilise those temporary differences. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

Impairment of goodwill and intangibles with indefinite useful lives:

The Group determines whether goodwill and intangibles with indefinite useful lives are impaired at least on an annual basis. This requires an estimation of the recoverable amount of the cash generating units to which the goodwill and intangibles with indefinite useful lives are allocated.

Share-based payment transactions:

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted.

(f) Going concern

The financial statements are prepared on a going concern basis.

At balance date, the Group had a working capital surplus of $4,207,518.

The Board of the Group considers that based on its assessment of operating cash flows, that it is appropriate to the Group's current circumstances, to prepare its financial statements on a going concern basis.

(g) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of Resource Development Group Limited.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Foreign currency translation

Both the functional and presentation currency of Resource Development Group Limited and its Australian subsidiaries is Australian dollars. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance date.

All exchange differences in the consolidated financial report are taken to profit or loss with the exception of differences on foreign currency borrowings that provide a hedge against a net investment in a foreign entity. These are taken directly to equity until the disposal of the net investment, at which time they are recognised in profit or loss.

Tax charges and credits attributable to exchange differences on those borrowings are also recognised in equity.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

The functional currency of the foreign subsidiary, Engenium Projects Limited is British Pound (£).

As at the balance date the assets and liabilities of the foreign subsidiary is translated into the presentation currency of Resource Development Group Limited at the rate of exchange ruling at the balance date and its statement of comprehensive income is translated at the weighted average exchange rate for the year.

The exchange differences arising on the translation are taken directly to a separate component of equity, being recognised in the foreign currency translation reserve.

On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in profit or loss.

(i) Revenue recognition

Revenue is measured at fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Rendering of services

Revenue from the rendering of services is recognised by reference to the stage of completion of the contract.

(ii) Interest income

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

(iii) Dividends

Dividends are recognised as revenue when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits. However, the investment may need to be tested for impairment as a consequence.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary difference and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Tax consolidation legislation

Resource Development Group Limited and its 100% owned Australian resident subsidiaries have implemented the tax consolidation legislation. See Note 3 for further information on how the Group accounts for income tax consolidation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(l) Business combinations

The acquisition method of accounting is used to account for all business combinations, including business combinations involving entities or business under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest’s proportionate share of the acquiree’s net identifiable assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group’s share of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity’s incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified as either equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

(m) Impairment of assets other than goodwill

The Group assesses at each balance date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset’s recoverable amount. An asset’s recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(m) Impairment of assets other than goodwill (continued)

An assessment is also made at each balance date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(n) Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of the business combination over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities.

Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Each unit or group of units to which the goodwill is so allocated:

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- is not larger than a segment based on either the Group's primary or the Group's secondary reporting format determined in accordance with AASB 8 *Operating Segments*.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units), to which the goodwill relates. When the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. When goodwill forms part of a cash-generating unit (group of cash-generating units) and an operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this manner is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Impairment losses recognised for goodwill are not subsequently reversed.

(o) Cash and cash equivalents

Cash comprises cash at bank and in hand. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(p) Trade and other receivables

Trade receivables are measured on initial recognition at fair value and are subsequently measured at amortised cost using the effective interest rate method, less any allowance for impairment. Trade receivables are generally due for settlement within 30 days.

Impairment of trade receivables is continually reviewed and those that are considered to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original contractual terms. Factors considered by the Group in making this determination include known significant financial difficulties of the debtor, review of financial information and significant delinquency in making contractual payments to the Group. The impairment allowance is set equal to the difference between the carrying amount of the receivable and the present value of estimated future cash flows, discounted at the original effective interest rate. Where receivables are short-term discounting is not applied in determining the allowance.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

(q) Property, plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses. Such cost includes the cost of replacing parts that are eligible for capitalisation when the cost of replacing the parts is incurred. Similarly, when each major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement only if it is eligible for capitalisation.

Land and buildings are measured at fair value less accumulated depreciation on buildings and less any impairment losses recognised after the date of the revaluation.

Depreciation is calculated on a reducing balance basis over the estimated useful life of the assets as follows:

Plant and equipment – over 2 to 20 years

Motor Vehicle – over 4 to 6 years

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each financial year end.

(i) Impairment

The carrying values of plant and equipment are reviewed for impairment at each balance date, with recoverable amount being estimated when events or changes in circumstances indicate that the carrying value may be impaired.

The recoverable amount of plant and equipment is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to approximate fair value.

An impairment exists when the carrying value of an asset or cash-generating units exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount.

For plant and equipment, impairment losses are recognised in the statement of comprehensive income in the cost of sales line item. However, because land and buildings are measured at revalued amounts, impairment losses on land and buildings are treated as a revaluation decrement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(q) Property, plant and equipment (continued)

(ii) Revaluations

Following initial recognition at cost, land and buildings are carried at a revalued amount which is the fair value at the date of the revaluation less any subsequent accumulated depreciation on buildings and any subsequent accumulated impairment losses.

Fair value is determined by reference to market-based evidence, which is the amount for which the assets could be exchanged between a knowledgeable willing buyer and a knowledgeable willing seller in an arm's length transaction as at the valuation date.

Any revaluation increment is credited to the asset revaluation reserve included in the equity section of the statement of financial position, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is recognised in profit or loss.

Any revaluation decrease is recognised in profit or loss, except that a decrease offsetting a previous revaluation increase for the same asset is debited directly to the asset revaluation reserve to the extent of the credit balance existing in the revaluation reserve for that asset.

An annual transfer from the asset revaluation reserve to retained earnings is made for the difference between depreciation based on the revalued carrying amounts of the assets and depreciation based on the assets' original costs.

Additionally, any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amounts of the assets and the net amounts are restated to the revalued amounts of the assets.

Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred to retained earnings.

Independent valuations are performed with sufficient regularity to ensure that the carrying amounts do not differ materially from the assets' fair values at the balance date.

(iii) Derecognition and disposal

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

(r) Trade and other payables

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. Trade and other payables are presented as current liabilities unless payment is not due within 12 months.

(s) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate assets but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

Provisions are measured at the present value or management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(s) Provisions (continued)

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability.

When discounting is used, the increase in the provision due to the passage of time is recognised as an interest expense.

(t) Employee leave benefits

(i) Wages, salaries, annual leave and sick leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the balance date are recognised in other payables in respect of employees' services up to the balance date. They are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

(ii) Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the balance date. Consideration is given to expected future wage and salary levels, experience of employee departures, and period of service. Expected future payments are discounted using market yields at the balance date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

(u) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a new business are not included in the cost of acquisition as part of the purchase consideration.

(v) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(w) Earnings per share

Basic earnings per share is calculated as net profit attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(x) Parent entity financial information

The financial information for the parent entity, Resource Development Group Limited, disclosed in Note 21 has been prepared on the same basis as the consolidated financial statements, except as set out below.

(i) Investments in subsidiaries, associates and joint venture entities

Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the financial statements of Resource Development Group Limited. Dividends received from associates are recognised in the parent entity's profit or loss, rather than being deducted from the carrying amount of these investments.

(ii) Share-based payments

The grant by the Company of options over its equity instruments to the employees of subsidiary undertakings in the Group is treated as a capital contribution to that subsidiary undertaking. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary undertakings, with a corresponding credit to equity.

(y) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are initially recognised at their fair value or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income, unless they are directly attributable to qualifying assets, in which case they are capitalised.

Finance lease assets are depreciated on a straight line basis over the estimated useful life of the asset.

Operating lease payments are recognised as an expense on a straight line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

(z) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition is accounted for as follows:

Raw materials – purchase cost on a first-in, first-out basis.

Finished goods and work-in-progress – cost of direct materials and labour incurred to date plus profits recognised to date less recognised losses and progress billings.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(aa) Intangible assets

Intangible assets acquired separately

Intangible assets acquired separately are recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method is reviewed at the end of each annual reporting period, with any changes in these accounting estimates being accounted for on a prospective basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(ab) Share-based payment transactions

Equity settled transactions:

The Group provides benefits to employees (including senior executives) of the Group in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

There is currently one plan in place to provide these benefits:

- the Employee Share Option Plan (ESOP), which provides benefits to directors and senior executives.

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Resource Development Group Limited (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each balance date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of comprehensive income charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share (see Note 5).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 2: REVENUE AND EXPENSES

	Consolidated	
	2013	2012
	$	$

Income tax expense reported in the consolidated statement of comprehensive income	973,249	1,186,552

(i) Resource Development Group Ltd and its Australian 100% controlled subsidiaries formed a tax consolidated group effective from 1 July 2011, in accordance with the consolidation regime. As a result, the tax cost base of depreciating assets was reduced, resulting in additional income tax expense of $221,197 being recognised this year.

The tax rate used in the above reconciliation is the corporate tax rate of 30% payable by Australian corporate entities on taxable profits under Australian tax law. There has been no change in this tax rate since the previous reporting period.

NOTE 3: INCOME TAX (continued)

The Group has tax losses arising in Australia of $Nil (2012: $1,908,511) that are available indefinitely for offset against future taxable profits of the companies in which the losses arose.

At 30 June 2013, there is no recognised or unrecognised deferred income tax liability (2012: $Nil) for taxes that would be payable on the unremitted earnings of certain of the Group's subsidiaries, associate or joint venture, as the Group has no liability for additional taxation should such amounts be remitted.

Tax consolidation

Effective 1 July 2011, for the purposes of income taxation, Resource Development Group Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated group. The members of the Group have entered into a tax sharing arrangement in order to allocate income tax expense to the wholly-owned subsidiaries on a pro-rata basis. The agreement provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. The head entity of the tax consolidated group is Resource Development Group Limited. No amounts have been recognised in the financial statements in respect of this agreement on the basis that the possibility of default is remote.

Tax effect accounting by members of the tax consolidated group

The head entity and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the group allocation approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group. The current and deferred tax amounts are measured in a systematic manner that is consistent with the broad principles in AASB 112 *Income Taxes*.

In addition to its own current and deferred tax amounts, the head entity also recognises current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

NOTE 3: INCOME TAX (continued)

Nature of the tax funding agreement

Members of the Group have entered into a tax funding agreement. Under the funding agreement the allocation of tax within the Group is based on a group allocation. The tax funding agreement requires payments to/from the head entity to be recognised via an inter-entity receivable (payable) which is at call.

The allocation of taxes under the tax funding agreement is recognised as an increase or decrease in the subsidiaries' intercompany accounts with the tax consolidated group head company, Resource Development Group Limited. The amounts receivable or payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practical after the end of each financial year

Resource Development Group Ltd has recognised a tax consolidation distribution from a wholly-owned tax group of $1,708,106 (2012:$1,651,165). The distribution arose as the result of tax losses generated by the head company and claimed in the consolidated income tax return and was recognised as credited to income tax expense.

NOTE 4: SEGMENT REPORTING

AASB 8 Operating Segments requires operating segments to be identified on the basis of internal reports about components of the Group that are reviewed by the chief operating decision maker in order to allocate resources to the segment and assess its performance.

The Board of Directors of Resource Development Group Limited reviews internal reports prepared as consolidated financial statements and strategic decisions of the Company are determined upon analysis of these internal reports.

The Group operates predominantly in one business segment being the provision of engineering and consulting services to mining clients in Australia. The Board of Directors is of the opinion that the statement of comprehensive income of the Group is equivalent to the operating segment identified above and as such no further disclosure is required in the notes to the consolidated financial statements in relation to business segments.

Revenue by geographical region

Revenue by geographical region attributable to external customers is disclosed below, based on the location of the external customer.

	Consolidated	
	2013	2012
	$	$
Australia	101,153,417	34,235,135
Africa	1,419,686	2,132,135
Ecuador	115,428	-
Total	102,688,531	36,367,270

Major customers

The Group has a number of customers to whom it provides services. The group supplied a single external customer who accounts for 70% of external revenue (2012: 30%). The next most significant client accounts for 7% (2012: 16%) of external revenue.

Impairment

During the year ended 30 June 2013, following the completion of intangible asset impairment testing, a $2,998,950 charge was taken against Pacer Corporation Pty Ltd, a $1,517,960 charge was taken against Intellect Systems Pty Ltd and a $3,252,157 charge was taken against Ecologia Environmental Consultants Pty Ltd. These charges were a consequence of management's outlook of future earning capabilities in these difficult markets.

Goodwill Allocation

Goodwill acquired through business combinations have been allocated to three individual cash generating units, for impairment testing as follows:

	Consolidated	
	2013	2012
	$	$
Pacer Corporation Pty Ltd	-	2,998,950
Intellect Systems Pty Ltd	3,000,000	4,517,960
Ecologia Environmental Consultants Pty Ltd	3,000,000	6,252,157
	6,000,000	13,769,067

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 10: INTANGIBLE ASSETS AND GOODWILL (continued)

Impairment testing

Impairment testing compares the carrying value of assets to be tested to the recoverable amount of future cash flows which was determined using the value in use calculation. Assumptions for ascertaining the recoverable amount are based on management's past experience and future expectations. Cash flow projections are based on five year forecasts. Forecasts use current management estimates, based on past management experience and future expectations to determine revenue, expenses, capital expenditure and cash flows.

	Discount rate as at 30 June 2013 % (a)	Discount rate as at 30 June 2012 % (a)	Terminal value growth rate as at 30 June 2013 % (b)	Terminal value growth rate as at 30 June 2012 % (b)
Pacer Corporation Pty Ltd	12	12	0	0
Intellect Systems Pty Ltd	12	12	0	0
Ecologia Environmental Consultants Pty Ltd	12	12	0	0

a) Discount rate represents the pre-tax discount rate applied to the cash flow projections. This discount rate reflects the market determined and risk adjusted discount rate.

b) Terminal value growth rate represents the growth rate applied to extrapolate cash flow projections beyond the five year forecast period. These growth rates are based on the competitive markets and current work in hand.

Reasonably possible change

As there is no longer goodwill associated with Pacer Corporation Pty Ltd changes to the assumptions would not have an impact to the carrying value. The recoverable amount of goodwill relating to both Intellect Systems Pty Ltd and Ecologia Environmental Consultants Pty Ltd would be impacted by an adverse movement in earnings, discount rate or terminal growth rate.

Summary of borrowing arrangements

The secured bank loan with Westpac Banking Corporation has a reducing limit, currently at $2,691,117, with a variable interest rate of 6.1% which was used to assist in the purchase of a subsidiary. The loan is due to expire on 31 May 2014. The loan is secured by a fully interlocking guarantee and indemnity by the Group and supported by a general security agreement by the Group over all existing and future assets and undertakings. The Group is in negotiations with the bank to extend this facility.

Due to the impairment of goodwill, the shareholder funds were less than the required 85% or greater of the previous year. This constituted a breach of the financial covenant held with Westpac Banking Corporation, requiring shareholder funds to be no less than $7,000,000 at all times or 85% of shareholder funds for the previous financial year. The bank has agreed to forbear from seeking a remedy against the breach pending its review of the Annual Report and subject to there being no other adverse features arising that in the sole discretion of the bank, may prejudice the Bank's position.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

NOTE 12: BORROWINGS (continued)

Summary of borrowing arrangements (continued)

The Group entered an agreement with the ultimate parent entity, Lightshare Investments Pty Ltd on 28 June 2013, whereby $2,000,000 of the $3,700,000 deferred acquisition consideration has been converted into an interest bearing loan for a minimum period of two years. Under the terms of the loan facility, interest of 7% is payable annually on 30 June 2014 and 30 June 2015. The facility also ensures that Lightshare Investments Pty Ltd cannot request repayment of the $2,000,000 before 30 June 2015.

The Group relinquished its $4,000,000 working capital facility during the year.

Options

The Company has not issued any options.

The Group continued its Employee Incentive Plan originally set up in February 2011, allowing the Board to invite employees to apply for incentives, for nil consideration. The incentives may be exercised for nil consideration when certain vesting conditions occur, at which point one share will be issued for each incentive exercised.

During the year 4,550,000 new incentives were issued, and 1,012,868 were forfeited on cessation of employment which was one of the conditions imposed on the incentives.

In May 2013 the vesting conditions being that the employee remains continuously employed for two years from issue of the incentives were met and 2,447,172 shares were issued. At 30 June 2013 there are 3,750,000 employee incentives on offer.

Nature and purpose of reserves

Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries. It is also used to record the effect of hedging net investments in foreign operations.

Share based payment reserve

This reserve is used to record the value of equity benefits provided to employees and directors as part of their remuneration.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

NOTE 16: FINANCIAL INSTRUMENTS

(a) Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The Group's overall strategy remains unchanged from 2012.

The capital structure of the Group consists of debt, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings/(accumulated losses).

None of the Group's entities are subject to externally imposed capital requirements.

Operating cash flows are used to maintain and expand operations, as well as to make routine expenditures such as tax, dividends and general administrative outgoings.

Gearing levels are reviewed by the Board on a regular basis in line with its target gearing ratio, the cost of capital and the risks associated with each class of capital.

	Consolidated	
	2013	2012
	$	$
(b) Categories of financial instruments		
Financial assets		
Cash and cash equivalents	3,842,749	4,680,847
Trade and other receivables	7,450,251	16,317,940
Financial liabilities		
Trade and other payables	2,418,547	11,009,317
Borrowings	7,677,884	9,541,004

(c) Financial risk management objectives

The Group is exposed to market risk including currency risk, fair value interest rate risk and price risk, credit risk, liquidity risk and cash flow interest rate risk.

(d) Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates, commodity prices and exchange rates.

There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risk from the previous period.

The Group does not have sufficient investments that would expose it to unmanageable market risks.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

NOTE 16: FINANCIAL INSTRUMENTS (continued)

(e) Foreign currency risk management

The Group undertakes certain transactions denominated in foreign currencies, hence exposures to exchange rate fluctuations arise. The Group does not have sufficient investments that would expose it to unmanageable foreign currency risks.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the balance date expressed in Australian dollars are as follows:

	Liabilities		Assets	
	2013	2012	2013	2012
	$	$	$	$
US Dollar	-	-	-	4,253
British Pound	15,174	52,689	102,769	128,464

Foreign currency sensitivity analysis

The Group is not exposed to any significant foreign currency fluctuations. The Group also mitigates its exposure to foreign currency risk by minimising excess foreign currency balances in overseas jurisdictions not required for working capital.

(f) Interest rate risk management

The Company and the Group are exposed to interest rate risk as entities in the Group borrow funds at variable interest rates. The Group's policy is to manage its exposure to movements in interest rates by fixing the interest rate on financial instruments, including bank loans, finance leases and hire purchase liabilities, wherever possible. In addition, the Group utilises a number of financial institutions to obtain the best interest rate possible and to manage its risk. The Group does not enter into interest rate hedges.

Interest rate risk sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for non-derivative instruments at the balance date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represent management's assessment of the change in interest rates

At balance date, if interest rates had been 50 basis points lower or higher and all other variables were held constant, the Group's net profit would increase by $13,244 ($2012: $18,535) and decrease by $13,244 (2012: $18,535). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

(g) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group only transacts with entities that are rated the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the Group uses publicly available financial information and its own trading record to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored.

The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

The carrying amount of financial assets recorded in the financial statements, net of any allowance for losses, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 16: FINANCIAL INSTRUMENTS (continued)

(h) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, who have built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The Group currently utilises financing facilities in the form of bank loans and hire purchase liabilities.

The following table details the Company's and the Group's expected contractual maturity for its non-derivative financial liabilities. These have been drawn up based on undiscounted contractual maturities of the financial liabilities based on the earliest date the Group can be required to repay.

	Weighted average effective interest rate %	Total $	1 year or less $	1 – 5 years $	5+ years $

Resource Development Group Limited is the intermediate Australian parent entity and intermediate parent of the Group.

Lightshare Investments Pty Ltd (Lightshare) is the ultimate Australian parent entity and ultimate parent of the Group.

The following table provides the total amount of transactions that were entered into with related parties for the relevant financial year:

Consolidated		Income from related parties $	Expenditure to related parties $	Amounts owed by related parties $	Amounts owed to related parties $
Entities with significant influence over the Group:					
Lightshare Investments Pty Ltd	2013	68,780	-	2,399	-
	2012	60,851	15,117	1,793	-

Transactions with Key Management Personnel

Refer to Note 24 for details of transactions with key management personnel.

Entity with significant influence over the Group

Lightshare Investments Pty Ltd owns 57.31% of the ordinary shares in Resource Development Group Limited (2012: 58.39%).

On the 28 June 2013 an agreement was executed between Lightshare Investments Pty Ltd and Resource Development Group Limited whereby $2,000,000 of the $3,700,000 outstanding from the share sale agreement dated 22 February 2011 was converted to an interest bearing loan facility. This loan facility has a 7% interest rate attached where the Group must pay the interest in arrears in two instalments, on 30 June 2014 and 30 June 2015. The term of the loan is two years commencing 1 July 2013 and ending 30 June 2015, with repayment of the $2,000,000 due at the end of the loan term.

Terms and conditions of transactions with related parties

Sales to and purchases from related parties are made in arm's length transactions both at normal market prices and on normal commercial terms.

Outstanding balances at year-end are unsecured, interest free and settlement occurs in cash.

No guarantees are provided or received for any related party receivables or payables.

An impairment assessment is undertaken each financial year by examining the financial position of the related party and the market in which the related party operates to determine whether there is objective evidence that a related party receivable is impaired. When such objective evidence exists, the Group recognises an allowance for the impairment loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

NOTE 22: EVENTS AFTER THE REPORTING PERIOD

On 25 September 2013, the Group received confirmation from Westpac Banking Corporation that the current loan facility due to expire on 31 May 2014 has been extended for a further three years until 7 May 2017. This extension in conjunction with the Lightshare Investments Pty Ltd funding arrangement secured on 28 June 2013 adds surety to the Group's funding going forward.

NOTE 23: AUDITOR'S REMUNERATION

DIRECTORS' DECLARATION

1. In the opinion of the directors of Resource Development Group Limited (the 'Company'):
   a. the accompanying financial statements and notes are in accordance with the Corporations Act 2001 including:
      i. giving a true and fair view of the Group's financial position as at 30 June 2013 and of its performance for the year then ended; and
      ii. complying with Australian Accounting Standards, the Corporations Regulations 2001, professional reporting requirements and other mandatory requirements.
   b. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
   c. the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.
2. This declaration has been made after receiving the declarations required to be made to the directors in accordance with Section 295A of the Corporations Act 2001 for the financial year ended 30 June 2013.

This declaration is signed in accordance with a resolution of the Board of Directors.

Mel Ashton
Director

Dated this 26 day of September 2013

INDEPENDENT AUDITOR'S REPORT

To the members of Resource Development Group Limited

Report on the Financial Report

We have audited the accompanying financial report of Resource Development Group Limited ("the company"), which comprises the consolidated statement of financial position as at 30 June 2013, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration for the consolidated entity. The consolidated entity comprises the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In Note 1(c), the directors also state, in accordance with Accounting Standard AASB 101: *Presentation of Financial Statements*, that the financial report complies with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's opinion

In our opinion:

(a) the financial report of Resource Development Group Limited is in accordance with the *Corporations Act 2001*, including:
   (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2013 and of its performance for the year ended on that date; and
   (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and

(b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1(c).

Report on the Remuneration Report

We have audited the remuneration report included in the directors' report for the year ended 30 June 2013. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion

In our opinion the remuneration report of Resource Development Group Limited for the year ended 30 June 2013 complies with section 300A of the *Corporations Act 2001*.
