**Changes to Preliminary Final Report**

As a result of the final sign-off of the 30 June 2015 audited financial report, and subsequent lodgment of our Annual Report today, the Board advises that a positive material change in the amount of \$1.7m was required to be made to the financial report presented in the Preliminary Final Report (Appendix 4E) lodged with the ASX on 31 August 2015.

The change involves two amounts of \$0.8m and \$0.9m respectively which relate to prior year tax adjustments that were disclosed in the Preliminary Final Report as a current period income tax expense. These are now disclosed as Prior Period Errors in the Annual Report of the Company lodged with the ASX today, 30 September 2015. Both of these amounts had the effect of increasing both the tax expense and deferred tax liability in 2013 and 2014, and as a result, reducing the income tax expense by the same amount for the year ended 30 June 2015.

The Company's tax advisers had been working with the Company on year-end tax matters and had indicated that an under provision of income tax expense of \$1.7m relating to the above mentioned matters were required to be recorded in prior periods. The Company's auditors confirmed that these amounts were material and that the relevant note be included in the Company's financial statements to provide adequate disclosure of these prior period errors.
